

HAPPENINGS OF A DAY IN UTAH.

PARK CITY

TRIBUNE BUREAU,
424 N. Main Street. Telephone 75.

ELECTRIC STORM DOES
GREAT DAMAGE TO WIRES

Special to The Tribune.

PARK CITY, Utah, July 9.—The electric storm here night before last did a great deal of damage to the telephone and electric light wires, especially the former. Manager Pettit and his crew have been kept busy for the past two days replacing burnt-out coils and generally repairing the lines.

A great deal of interest is taken in the school election which will take place next Monday. A trustee for three years to succeed L. E. Hubbard, present chairman of the Board, is to be elected. Mr. Hubbard is a candidate for re-election and W. D. Watson is also a candidate for the position. The place of voting will be at the Washington school and the polls will be open from 1 o'clock until 6 o'clock p. m.

George Hodson, the new pitcher for the Park City baseball team, arrived from St. Joseph, Mo., this morning. Mr. Hodson is said to be a first-class man, having pitched for some of the best teams in Iowa and Missouri, and his connection with the Park team, it is believed, will strengthen it materially.

Last evening the ladies of the Congregational church gave a reception at

the home of Mrs. Charles Shields on Park avenue in honor of the new pastor, Rev. D. Q. Grabbill. The affair was well attended and the new minister was given a cordial welcome. After the usual greetings a musical programme was rendered by some of the best talent in Park City.

Morris Dusseldorf, one of the chief stockholders of the Comstock mine, came up from Salt Lake this morning and spent the greater portion of the day at the mine. At present the outlook at this property is quite promising and the stockholders are very hopeful of some new developments in the not far distant future.

W. W. Armstrong was an incoming passenger on the moving train. He will remain in the camp until Monday or Tuesday.

Mrs. James W. Horton, mother of Mrs. E. W. Wright, and daughter Miss Ella May arrived from Waterbury, N. Y., this morning for a visit of several weeks with Dr. and Mrs. Wright.

Visiting His Old Home.

Special to The Tribune.

MANTI, July 9.—Charles Nelsen, from Yakima, after an absence of more than five years, is here visiting his parents and relatives. Mr. Nelsen has charge of the Yakima electric light plant and is one of the well-to-do and substantial citizens of that town. His parents, who are approaching the evening of life, are greatly rejoiced to see their son.

Leo Burt, an orphan, 13 years old, a grandson of Walter Cox, died yesterday of typhoid pneumonia after an illness of nearly two months.

TRIED TO END HIS LIFE
WITH DOSE OF POISON

Special to The Tribune.

PROVO, July 8.—In a fit of jealousy Nels Hallet, a resident of Pleasantview, made an attempt to commit suicide. It seems that Hallet and his wife have had considerable trouble. After threats and persuasion, which proved ineffectual, Hallet decided to end the matter as far as he was concerned by taking morphine. The couple live about a mile north of Provo and this morning Hallet called at his home with a desire to bring about a reconciliation and, falling in that, he was determined to end matters at once. Mrs. Hallet refused to listen to him and spoke of divorce proceedings. The thought of being separated from his wife and child was more than he could stand and in the presence of his family he took the poison.

The social event held in the Fifth ward last night was an enjoyable affair through the efforts of the ladies of the ward. The evening was spent in the "new home." After the following programme was completed a sumptuous lunch was served:

Opening song, juvenile choir; prayer, H. H. Cliff, song, "What Will the Harvest Be?" Pearl Boren, assisted by choir; address of welcome, Bishop Morrison Snow; remarks, David John, song, Pearl Boren, recitation, Mrs. Lydia T. Reed, song, Willard Andelin; remarks, Senator Fred Smoot, song, Willard Andelin; remarks, E. S. Hinckley. By request Willard Andelin sang "Rocked in the Cradle of the Deep."

On Wednesday, July 6, a family reunion was held at the home of L. John Nuttall, the occasion being the seventh anniversary of Mr. Nuttall's birth. At noon a dinner was served to the family, there being ten children and twenty-one grandchildren present. The evening a number of old-time friends were entertained. The dining-room was profusely decorated with poppies and roses, the parlor with carnations and nasturtiums. The guests present were President and Mrs. David John, Apostle and Mrs. Reed Smoot, Messrs. and Mesdames S. J. Jones, J. C. Graham, J. P. R. Johnson, John Giles, Abraham Halliday, W. H. Gray, J. E. Gilles, Ralph Poulton, Willard Nuttall and Thomas C. Nuttall, Miss Lillian Twelves, Joseph Nuttall and Mrs. Mary Nuttall.

CHANGES IN BUSINESS
AND POSTOFFICE AT LEHI

Special to The Tribune.

LEHI, July 9.—Quite a number of business changes will be made in the near future in Lehi. William E. Rock, formerly superintendent of the People's Co-op, but who has been on a mission to Denmark for two years, has formed the Rocker Mercantile Co. and will open up a general merchandise store on Main street with lumber and coal yards at the San Pedro station.

John L. Snow, who has been the principal owner and manager of the Lehi Mercantile company since its organization, has retired and may open up a big furniture store on Main street.

James M. Kirkham, who has just returned from a two years' absence on the coast, will assume the management of the mercantile company. Mr. Kirkham will also act as manager of the Standard knitting mills.

Felix Long, who has had charge of the Mercantile company's grocery and hardware department also retires.

Mrs. C. H. Brown, who was taken to the Holy Cross hospital last week is reported much worse.

Hector Brown, who is in from Grand Junction for a few days, reports the sugar beet in that locality as exceptionally fine, and says the prospect for a successful year are the best in the factory's history.

T. R. Cutler, Jr., superintendent of the Sugar City, Idaho, factory, has been in Lehi for the past week. He reports the erection of the new sugar factory as progressing rapidly and says that the new town of Sugar City is experiencing a phenomenal growth and will undoubtedly be the metropolis of Fremont county. It has been reported that June frost had killed about 30 per cent of the beet crop, but Mr. Cutler says that the loss is small, and will not exceed 5 per cent.

Dr. C. O. Townsend, the Government expert in charge of the best seed experiment station at the Saratoga springs, has gone to Washington for two weeks.

The Government surveyors have surveyed for a canal to take the waters from the Strawberry valley into Cedar valley. The survey is from the point of the mountain near Jordan Narrows and includes a flume several miles in length, but the surveyors say that the water can be gotten into this arid and fertile valley and that the scheme is entirely feasible.

For a long time Lehi has been trying to get a baseball game with American friends at St. John's, Tooele county.

Howard Hall, an aeronaut performing at Utah park, was seriously injured tonight while giving a balloon ascension.

The balloon was not sufficiently inflated, and although it arose properly, it soon began to pass over the Boyle block it began to settle down on Washington avenue. The ropes became entangled with a network of wires over the street and, the distance being too short to use the parachute, Hall let go and dropped. He fell about thirty feet to the pavement, landing on all fours. Both arms were dislocated, the left one at the elbow and the right one at the wrist.

Dr. Rich dressed Hall's injuries and he is getting along nicely. It was Hall's first ascension at Utah park and it will likely lay him up for two weeks at least.

As soon as he dropped the balloon arose and alighted later on Twenty-eighth street, nearly a mile away.

Can Fork. Last evening efforts were rewarded and agreements were signed

for a series of three games. The first will be played at Lehi on July 21, the next a week later at American Fork and a "toss up" will decide where the third game is to be played. The winner of the games will be declared the champion team of the Alpine stake, besides taking in a side bet of \$200, which has been posted.

The postoffice of Lehi City has been discontinued. This does not mean that we have no postoffice here, but the name has been changed to Lehi and all money orders and other official communications must now be made on "Lehi."

DRY FARMING PLEAS
TOOELE COUNTY FARMERS

Special to The Tribune.

GRANTSVILLE, Tooele County, July 9.—More than 250 persons, from seven different towns of Tooele county, had an opportunity yesterday of inspecting the work done on the Tooele county arid farm, conducted under the direction of the Utah Experiment station. Representative farmers, with their families, came from every part of Tooele county.

The wheat and oats are just beginning to ripen and give evidence of giving an extra large yield for dry farming. The sugar beets, corn, speltz, millet, velvet beans, Kaffir corn and dwarf Essex rape are all looking thrifty and vigorous and give every promise of a fine crop. Especially promising was a plot of sand wheat which now stands about eighteen inches high.

Before harvesting samples will be taken from each of the plots for exhibit at the State fair this fall.

Leon Inlay, the local foreman in charge, had constructed a bower forty feet square and had on hand, also, a number of gallons of lead lemonade for refreshment.

After lunch Representative Spry called those assembled to order and Prof. Merrill explained the work of the farm, giving reasons for the success or failure of the various plots. The principles upon which successful dry farming is based were explained and the farmers encouraged to adopt these methods and utilize the waste deserts of Tooele county.

Among the leading citizens present were County Commissioners Rydahl and Powell, Representative Spry, Bishop Wrathall, County Surveyor Stookey, Bishop Stookey, John Tate, E. D. Woolley, A. Hale and others.

This is the first time anything of the kind has ever been held in this county, and its success will encourage similar excursions in future years. By seeing the actual work accomplished in ten months, many of the most progressive farmers here were encouraged to invest in this enterprise, and if the same results can be secured in future years the agricultural output of this county will be increased many fold.

ALPINE STAKE ASSIGNS

Don't Know Which
Husband Is Best

Supposed Dead Man Returns, Finds Wife Married and in Love With Both Men.

NEW YORK, July 9.—With two husbands living, both of whom she loves and neither of whom she desires to give up, Mrs. John Peal or Mrs. Michael Murnane—she owns both names—is the most perplexed woman in Midvale, N. J., a small place about six miles from Paterson. She appealed to Representative William Hughes of Paterson for advice, and when it was given, womanlike, she declared she didn't know what to do.

Eight years ago she and John Peal were living happily on a farm at Midvale when the Klondike excitement came. Peal went to the Klondike and for six months corresponded regularly with his wife. Then no more letters came from him for many months and at the end of two years a letter was sent to Mrs. Peal from the Klondike telling her that her husband had died.

She donned widow's weeds and mourned her husband sincerely for two years. At the end of that period she met Michael Murnane, a stalwart young man, with a substantial bank account. He courted her so assiduously and with such success that they were married.

Mrs. Peal became Mrs. Murnane. They went to Midvale to live, sought out the old farm and settled down there, as they thought, for life.

A letter from the Klondike came to Mrs. Murnane last Thursday. It was from John Peal. He reproached his wife for not answering his letters and said he had written regularly during the entire eight years and had sent money in every letter. When Mrs. Peal-Murnane had recovered from the shock she showed the letter to her present husband, and the two decided to visit Representative Hughes and seek his advice.

"You see, I always loved John dearly," she said. "I love you, too, Michael, you know that—but I was married to John and I'm his wife. It wasn't his fault that I believed he was dead."

"But didn't you marry me? And don't you love me?" demanded Murnane.

For answer Mrs. Peal-Murnane put her arms around her husband's neck and gave him a rousing kiss.

"You know I love you," she declared. "With all my heart and soul I do."

The couple finally decided that as the wife could not make up her mind at this time what to do, the ultimate decision should be put off until Peal comes home.

NEWS NOTES BY WIRE.

WASHINGTON, July 9.—Acting upon a report from Gen. Bell, who investigated the conditions at Kansas City growing out of the Dodge Act, Secretary of War Oliver has telegraphed Gen. Bell to issue 100 tents and five days rations for the relief of the food sufferers.

ARKANSAS CITY, Kan., July 9.—Although the Arkansas river here is stationary and the Walnut is falling slowly, Arkansas City is experiencing the worst flood in its history. The dykes are to be broken and people in the lowlands are being warned to leave their homes.

CHICAGO, July 9.—The plant of the National Provision company was damaged \$5000 by fire today. As a result of the fire a terrible explosion occurred in a big new sewer in Thirty-ninth street. For a distance of a mile along the thoroughfare manhole covers were sent high in the air.

SSS FOR THE BLOOD

The best known and most popular blood purifier and tonic on the market to-day is S. S. S.

There is hardly a man, woman or child in America who has not heard of "S. S. S. for the blood." It is a standard remedy and specific for all blood troubles and an unequalled spring tonic and appetizer. S. S. S. is guaranteed purely vegetable, the herbs and roots of which it is composed being selected for their alterative and tonic properties, making it the ideal remedy for all blood and skin diseases, as it not only purifies and invigorates the blood, but at the same time tones up the tired nerves and strengthens the general system.

Your S. S. S., in my opinion, is as good a medicine as can be had; it simply cannot be improved upon as a remedy to enrich the blood and to invigorate and tone up the system. This spring my blood was bad and I was run down in health, and having seen your medicine highly advertised and commenced its use. To-day my blood is in fine condition and my general health is of the best. I am a man for a large concern here, and if I was not in good physical condition it would be impossible for me to fill the place. S. S. S. has been of great service to me. I do not hesitate to give it the credit it deserves. WM. F. VAN DYKE, 815 Fifth St., Beaver Falls, Penn.

For Chronic Sores and Ulcers, Catarrh, Rheumatism, Blood Poison, Malaria, Anemia, Eczema, Psoriasis, Salt Rheum, Tetters, Acne, and such other diseases as are due to a polluted or impoverished condition of the blood, nothing acts so promptly and effectually as S. S. S. It counteracts and eradicates the germs and poisons; cleanses the system of all unhealthy accumulations, and soon restores the patient to health. If you need medical advice write us about your case, and your letter will receive prompt attention from our physicians, for which no charge is made.
